

Meet Mrs. Nees ...

My name is Shannon Nees and I will be teaching your 4th grade child this year. I am excited to have your child in my class and look forward to a wonderful year together.

I believe that parents are a key instrument in a child's success at school. By approaching this school year as a joint effort, your child will benefit tremendously. I encourage you to communicate often with me and I will do the same with you. Support your child's efforts at home, develop a structure for consistent homework completion and study, and above all...be encouraging and help your child to see his/her strengths and abilities.

You, your child, classmates, myself and the rest of the Central Elementary staff are all a team . . . and remember, TEAM means:

“Together, Everyone Achieves More!”
